STELLA BILLARDS

Stella elegantly reinvents billiards by blending tradition and innovation.

It was on the eve of World War II that Mr. Auguste Sarrault, the first president of the French Automatic Federation, conceived his very first football table. Shortly thereafter, billiards were developed to complement the range of pub games. While Stella became a key player in the world of football tables, the Stella billiard slowly faded into obscurity.

Since 2020, Stella has aimed to revive the production of billiard tables. Inspired by vintage plans and its timeless design, Stella has envisioned beautiful products that emphasize materials and the joy of the game. With its compact range and standard-sized models suitable for various types of play, Stella delights all billiards enthusiasts.

INNOVATING IN TRADITION

Since then, Stella Billiards has never stopped innovating and pushing boundaries, creating billiards that are more than just games. They are pieces of furniture that seamlessly fit and adapt to your interior. Our artisans put all their expertise into every detail, from refined finishes to delicate ornaments, to offer you a timeless vintage aesthetic that evokes nostalgia for a bygone era.
