Ø: 180 cm
Weight: 2 kg

MATERIAL
Frame: Steel
Umbrella: Olefin fabric

To create small areas of shade in your garden or elsewhere, a parasol is the perfect choice. The ELIOS POP has a solid steel frame and is suitable for any type of outdoor setting. The Elios umbrellas are equipped with a practical swivel joint, which can be reclined up to 45°.

The automatic opening and closing mechanism is sleek and practical, the flexible slats are made of painted steel - and there is a height adjustment system, as well as an end cap. **Boost your garden with the new, fresh ELIOS POP!**

MIX COLORS AND MODULES
MAKE YOUR OWN GROUP

Domino's base (480 or 486) is made of aluminium alloy - strong and light. The sitting, made with olefine fabric, filled with polyester, combines excellent comfort with a high resistance to variations of weather and UV rays. The cushions are waterproof. Domino is completely removable, washable and - above all - combinable as you prefer!

MATERIALS

TEXTILENE

Micro-pierced fabric with plastic coated and heat sealed polyester yarn to guarantee an excellent stability of the stitching and weight and durability resistance. The coating in plastic gives the fabric physical resistance and maintains the colour under continuous exposure to the sun and to severe weather conditions. Therefore, it is particularly suitable for outdoor use. Easily washable with soap and water.

POLYESTERE

Synthetic fabric produced with simpler yarn but still maintaining the same characteristics of resistance and durability. This type of fabric is used in O27S Fiesta Soft chairs. Easily washable with soap and water.

OLEFIN

Olefin is a synthetic textile fiber and consists of long fibers of propylene plastic. Its special structure prevents it from being attacked by mildew, fungi and bacteria which is damaging to health and can cause unpleasant odors. It has passed the most advanced laboratory tests, which guarantee strong resistance to light and abrasion. The cushions are made with this fabric and are fade-resistant, stain-resistant and quick drying. Handwash 30 degrees.

LEATHER

The semi-aniline Italian leather is produced from buffalo skin and is 0.9-1.0mm thick. It is treated with an aniline dye and a water based pigments. Due to technical reasons it is not possible to guarantee the same tonality of colour from one batch to another. To clean the leather dust it off with a clean, soft and dry cloth. Stains can be removed using a damp cloth and mild detergent.

TERMS & CONDITIONS

This pricelist is valid until 2024-08-31

PRICES

Net price excluding VAT and recommended retail price including VAT. Shipping cost is not included. Order with a value of less than 3000 kr, excluding VAT and freight cost, will be charged a handling fee of 250 kr.

TERMS OF PAYMENT

With all new customers we require prepayment with the first order and after approved credit-check the terms of payment are 30 days net. Existing customers get 30 days net. Homestructures Sweden owns the goods until full payment has been made. If the credit limit has been exceeded we may ask for prepayment. Homestructures reserves the right to withhold goods when the credit limit has been exceeded or if any previous invoices has expired, this also applies to any pending items on backorder. Cancellation of confirmed orders will be charged 50% of the value of the order.

COMPLAINTS

Any complaints concerning shipping damage, incorrect deliveries or defective goods needs to be made within 5 working days after delivery. Freight damage should be noted on the delivery note, photographed and sent to Homestructures within 5 working days.

RUST WARRANTY

The armrests on the Spaghetti chairs were previously fabricated using powder coated steel and these chairs have a rust warranty of two years. The rust warranty does not apply to fittings and screws.

Homestructures also reserves the right to correct prices without notice. We also reserves the right to any missprint in this pricelist.
